List of Charts

Prevalence of drug misuse

— Scottish crime survey	
Use of any drug in the last year: 1993, 1996 and 2000 age group	15
Reported use 'ever', 'in the last year', and 'in the last month': 2000 age group	17

Health impact of drug misuse

— General acute hospital inpatient statistics	
General acute admissions for drug misuse by deprivation category rate per 100 000 population: 1999/00	25
— Information from general practice	
Proportion of patients (with and without a diagnosis of drug misuse) seen with specified condition/illness: 2000 patients aged 15-44 years	44

Services and treatment for drug misuse

— Scottish Drug Misuse Database	
Age profile of new individuals attending services by age group: 1996/97 - 2000/01	72
Gender profile of new individuals aged under 20 years: 1996/97 - 2000/01	72
Reported use of heroin in all drugs used by age group: 1996/97 - 2000/01	83
Reported use of methadone in all drugs used by age group: 2000/01	83
Reported use of diazepam (from other sources) in all drugs used by age group: 1996/97 - 2000/01	84
Reported use of selected stimulants in all drugs used: 1996/97 - 2000/01	84
Age at onset of problem drug misuse: 2000/01	85
Percentage of individuals injecting within the previous month by age group: 1996/97 - 2000/01	98
Age when first injected: 2000/01	98
Route of heroin use: 1996/97 - 2000/01 age group	99
Percentage of current injectors reporting sharing injecting equipment by age group: 2000/01	100
Percentage of current injectors reporting sharing injecting equipment in previous month by age group: 1996/97 - 2000/01	100
Employment status: 2000/01	111
Living situation: 2000/01	111
Legal situation: 2000/01	111
Type of service returning forms: 2000/01	119

List of Figures

Prevalence of drug misuse

— National prevalence study	
Estimated prevalence of problem drug use by NHS board	20
Estimated prevalence of problem drug use by council area	21

List of Tables

Prevalence of drug misuse

— Scottish schools survey	
Pupils who had used drugs in the last month, in the last year (including the last month) and ever; age: 1998 and 2000 gender	9
Pupils who had used individual drugs in the last year; gender: 1998 and 2000 drug group, drug name	10
Pupils who had used individual drugs in the last year; age: 2000 drug group, drug name	11
Pupils who had been offered individual drugs; gender: 1998 and 2000 drug group, drug name	12
Pupils who had been offered individual drugs; age: 2000 drug group, drug name	13
— Scottish crime survey	
Use of any drug in the last year: 1993, 1996 and 2000 age group	15
Use of any drug in the last year in 16 - 24 years age group: 1993, 1996 and 2000 gender	15
Prevalence of drug misuse; gender and age group 'ever' and 'in the last twelve months'	16
Reported use 'ever', 'in the last year' and 'in the last month': 2000 age group	17
Reported use of any drug in the last year; age: 2000 household income	17
Reported use of any drug in the last year; age: 2000 employment status	18

— National prevalence study	
Estimates of the number of problem drug users and prevalence; NHS board	20
Estimates of the number of problem drug users; council area	21
Estimated prevalence of problem drug use; gender ten council areas with highest prevalence	22
Estimated prevalence of problem drug use; age group ten council areas with highest prevalence	23

Health impact of drug misuse

— General acute hospital inpatient statistics	
General acute admissions for drug misuse: 1997/98 - 2000/01 NHS board and council area of residence, age group and gender	26
General acute admissions for drug misuse; age group: 2000/01 drug type	27
General acute admissions for drug misuse: 1997/98 - 2000/01 drug type	27
General acute admissions for drug misuse; drug type: 2000/01 NHS board and council area of residence, age group and gender	28
General acute admissions for drug misuse; type of admission: 2000/01	29
General acute admissions for drug misuse; speciality: 2000/01 NHS board and council area of residence, age group and gender	30
General acute admissions for drug misuse; length of stay: 2000/01 drug type	31
General acute admissions for drug misuse; length of stay: 2000/01 NHS board and council area of residence, age group and gender	32
— Psychiatric inpatient statistics	
Psychiatric inpatient discharges with a diagnosis of drug misuse; discharge diagnosis: 1994/95 - 1999/00 previous psychiatric inpatient status, NHS board of residence and council area of residence	35
Psychiatric inpatient discharges with a main discharge diagnosis of drug misuse; drug type: 1999/00 previous psychiatric inpatient status, NHS board of residence, council area of residence, age group and gender	36

Psychiatric inpatient discharges with a discharge diagnosis of drug misuse in any position; length of stay: 1999/00 previous psychiatric inpatient status, NHS board of residence, council area of residence, age group and gender	37	Services and treatment for drug misuse
Psychiatric inpatient discharges with a main discharge diagnosis of drug misuse: 1999/00 supplementary discharge diagnosis	38	
Psychiatric inpatient discharges with a supplementary discharge diagnosis of drug misuse: 1999/00 main discharge diagnosis	38	
Psychiatric inpatient discharges by main discharge diagnosis: 1999/00 all discharges by previous psychiatric inpatient status and gender	39	
— Information from general practice		
Number of patients diagnosed (total and first diagnosis only) and number of contacts: 1999 and 2000	42	
Prevalence and contact rates: 1999 and 2000	43	
Proportion of patients seen with specified condition/illness: 2000 patients aged 15-44 years	43	
Tracking patients with a first diagnosis of drug misuse for 12 months; gender and age group: 1999 and 2000	45	
— Drug misuse in pregnancy		
Number of maternities: 1996/97 - 1999/00 NHS board, council area of residence and age of mother	48	
Neonatal discharges: 1996/97 - 1999/00 NHS board and council area of residence	49	
— Blood-borne viruses		
Hepatitis B infected injecting drug users: 1990 - 2000 NHS board	52	
AIDS cases and deaths registered, and HIV-infection reports among injecting drug users: 1987-2000 as at 31 December of year indicated	52	
HIV-infected injecting drug users: 1985, 1990, 1995 - 2000 NHS board and year of report; as at 31 December 2000	53	
HIV-infected injecting drug users: 1985, 1990, 1995 - 2000 age at time of earliest specimen; as at 31 December 2000	53	
HIV-infected injecting drug users; gender and vital status NHS board; as at 31 December 2000	54	
HIV-infected persons undergoing immunological monitoring in Scotland - CD4 monitoring: 1992 - 2000 number of individuals monitored, NHS board of laboratory; as at 31 December 2000	54	
HIV-infected persons undergoing immunological monitoring; most recent CD4 count and highest level of anti-retroviral therapy NHS board of laboratory, probable/possible route of transmission (persons monitored since 1 January 2000; as at 31 November 2001)	55	
HIV-infected injecting drug users undergoing immunological monitoring for the first time; first CD4 count: 1997 - 2000 NHS board of laboratory, year of first CD4 count	56	
HIV prevalence among injecting drug users having a named HIV test: 1997 - 2000 NHS board	57	
Persons reported to be Hepatitis C antibody positive: 1993 - 2000 NHS board, probable/possible route of transmission	58	
Persons reported to be Hepatitis C antibody positive; probable/possible route of transmission age group; to 30 June 2000	60	
— Drug-related deaths in Scotland, 2000		
Drug-related deaths; cause of death: 1996-2000	65	
Drug-related deaths: 1996-2000 NHS board	65	
Drug-related deaths; cause of death: 2000 NHS board	65	
Drug-related deaths; cause of death: 2000 age group and gender	66	
Drug-related deaths; selected drugs involved: 1996-2000	66	
Drug-related deaths: selected drugs involved: 2000 NHS board	66	
Drug-related deaths; old definition: 1996 - 2000	67	
— Scottish Drug Misuse Database		
Ethnic profile of new individuals: 2000/01	72	
New individual patients/clients reported: 1996/97 - 2000/01 number of individuals and EASR; NHS board and council area of residence	73	
Age group analysis: year ending 31 March 2001 number of individuals, EASR (and 95% CI); NHS board and council area of residence	74	
Age group analysis of males: year ending 31 March 2001 number of individuals, EASR (and 95% CI); NHS board and council area of residence	76	
Age group analysis of females: year ending 31 March 2001 number of individuals, EASR (and 95% CI); NHS board and council area of residence	78	
Age group and gender: 1996/97 - 2000/01 percentage and number of individuals; gender and age group	80	
All drugs: year ending 31 March 2001 percentage of individuals reporting using each drug of misuse; NHS board and council area of residence	86	
All drugs: 1996/97 - 2000/01 percentage of individuals using each drug by age group	88	
Reports of heroin use: 1996/97 - 2000/01 percentage of individuals reporting use of heroin; NHS board and council area of residence	90	
Main drug: year ending 31 March 2001 percentage of individuals reporting using each drug as main drug of misuse; NHS board and council area of residence	92	
Main drug: 1996/97 - 2000/01 percentage of individuals using each drug as their main drug of misuse	94	
Age at onset of problem drug use: year ending 31 March 2001 NHS board and council area of residence	95	
Age at onset of problem drug use: 1996/97 - 2000/01 percentage of individuals by age at onset	96	
Time from onset until help first sought: year ending 31 March 2001 NHS board and council area of residence	97	
Injecting: year ending 31 March 2001 NHS board and council area of residence	101	
Injecting: 1996/97 - 2000/01 percentage of individuals by injecting status and age group	102	
Current injecting: 1996/97 - 2000/01 percentage of individuals reporting injecting in the past month; NHS board and council area of residence	103	
Age when first injected: year ending 31 March 2001 individuals reported to have injected in past month; NHS board and council area of residence	104	
Age when first injected: 1996/97 - 2000/01 percentage of individuals reported to have injected in past month by age first injected	105	
Route of use of heroin: year ending 31 March 2001 percentage of individuals reporting use of heroin by route of use; NHS board and council area of residence	106	
Route of use of heroin: 1996/97 - 2000/01 percentage of individuals reporting use of heroin by route of use	107	
Injecting heroin use: 1996/97 - 2000/01 percentage of individuals reporting use of heroin by injecting; NHS board and council area of residence	108	
Sharing injecting equipment: year ending 31 March 2001 individuals reported to have injected in past month; NHS board and council area of residence	109	
Sharing injecting equipment: 1996/97 - 2000/01 percentage of individuals reported to have injected in past month by sharing status and age group	110	
Employment status: year ending 31 March 2001 NHS board and council area of residence	112	
Employment status: 1996/97 - 2000/01 percentage of individuals by employment status	113	
Living situation: year ending 31 March 2001 NHS board and council area of residence	114	
Living with dependent children: year ending 31 March 2001 NHS board and council area of residence	115	
Living situation: 1996/97 - 2000/01 percentage of individuals by living situation	116	
Legal situation: year ending 31 March 2001 NHS board and council area of residence	117	

Legal situation: 1996/97 - 2000/01 percentage of individuals by legal situation	118	— Drug misuse and treatment in Scottish prisons	
Forms received: 1996/97 - 2000/01 NHS board and council area of residence	120	Drugs detected by urine testing at reception into custody: 1998/99 - 2000/01	151
Type of service returning forms: year ending 31 March 2001 NHS board and council area of residence	121	Drugs detected by urine testing at reception into custody: October 2000 Scottish Prison Service establishment	151
Type of service returning forms: 1996/96 - 2000/01	122	Self-reported substance misuse at reception into custody (all sample, indicative only)	152
— GB Regional Drug Misuse Databases		Mandatory drug testing results: 1996/97 - 2000/01 SPS aggregate; random tests of 10% of prison population	152
Main and all drugs of misuse reported and percentage injecting: 1 October - 31 March 2000 Great Britain, Scotland, England and Wales	129	Mandatory drug testing results: 2000/01 random tests of 10% of prison population	153
New individual patients/clients; age group: 1 October 1999 - 31 March 2000 gender; Great Britain, Scotland, England and Wales	129	Scottish Prison Service drug strategy outputs: 2000/01	153
— Prescription statistics			
Prescriptions & Defined Daily Doses per 1 000 population: 2000/01 NHS board, drug type	131		
Prescriptions & Defined Daily Doses per 1 000 population: 1992/93 - 2000/01 drug type	132		
Methadone mixture prescriptions: 1997/98 - 2000/01 NHS board of prescribing, number and rate per 1 000 population	132		
Instalment dispensings of methadone mixture: 2000/01 NHS board of prescribing	133		
Single dispensings of methadone mixture: 2000/01 NHS board of prescribing	133		
Drug education in schools, 2000/01			
Schools providing drug education and the types of drug education involved: 2000/01 sector/type of school	136		
Schools which provide drug education which is in line with current national advice; type of school: 2000/01 sector	136		
Schools with written procedures for managing incidents of drug misuse: 2000/01 sector/type of school	137		
Drugs and criminal justice			
— Drug-related offences and court proceedings			
Drug-related offences recorded by Scottish police forces: 1997 - 2000 (mainly Misuse of Drugs Act 1971 offences); council area, number and rate per 100 000 population	140		
Drug-related offences recorded by Scottish police forces; type of offence: 2000 (mainly Misuse of Drugs Act 1971 offences), council area	141		
Persons convicted of drug offences in Scottish courts: 1990 - 1999 type of offence and age of convicted person	142		
Persons convicted of drug offences in Scottish courts: 1990 - 1999 type of offence and sentence	143		
Persons convicted of drug offences in Sheriff courts: 1999	144

National Statistics releases from ISD

Information presented in this publication from ISD is derived from data sources which are classed as *National Statistics* releases. These include:

- General acute hospital inpatient statistics (SMR01)
- Psychiatric inpatient statistics (SMR04)
- Information from general practice (CMR)
- Drug misuse in pregnancy (SMR02, SMR11)
- Scottish drug misuse database (SMR22, SMR23)
- Prescriptions relating to drug misuse (PIS)

National Statistics are produced to high professional standards, and adhere to commitments relating to integrity, confidentiality, data collection, liaison and consultation, openness, access and timeliness. National Statistics undergo regular quality assurance reviews to ensure that they meet customer needs, and they are produced free from political interference.

National Statistics releases are grouped under one of 13 broad subject headings (themes); this publication belongs to the Health and Care theme.

Further details on *National Statistics* are contained at the *National Statistics* website www.statistics.gov.uk; further information in relation to *National Statistics* and ISD Scotland is available from www.show.scot.nhs.uk/isd/National_statistics/index.htm.

For further information please contact: Philip Johnston – Tel 0131 551 8267 (email: philip.johnston@isd.csa.scot.nhs.uk).

For further information on the non-ISD data please contact the appropriate organisation directly (see page 155) for contact details.
